## Instructions for software upgrade

Via USB upgrade:

1. Download the latest software version from JBL.com with the below 3 files:
  - checksum.txt, upgrade.zip and upgrade.zip.sign.
2. Prepare one empty USB Stick and copy the 3 files to the root directory.
3. Please insert the USB Stick into the Soundbar USB port and press: the [SOURCE] and [VOL+ ] buttons on the Soundbar to start the software upgrade. Then, wait for the software upgrade to complete. Once completed, the Soundbar will restart.
4. To check the software version:
  - Press and hold the [SOURCE] and [VOL- ] buttons on the Soundbar for 10 seconds.

**Via auto-update over Wi-Fi:**

1. Connect Wi-Fi to your Soundbar using the JBL One app.
2. Once the Soundbar is in standby mode, the software will automatically update.

---THE END---
